In association with
CAS &Wikipedia
Presents a Seminar on

Wikipedia for application in engineering system design

DATE: 25th January, 2012.
TIME: 11:30am-1pm.
VENUE: Committee Room, ETCE Department.

As you might know, Wikipedia is an online encyclopedia and is the 5th most-visited website on the planet. It's completely free to use and re-use, it has no advertising, is available in >270 different languages - including 19 Indian languages. Wikipedia articles are written by everyday folks who volunteer to share their knowledge with the world. People like your students, you and me are constantly improving Wikipedia articles, making thousands of changes per hour! Through this session on Wikipedia, you will know more about Wikipedia, who edits Wikipedia and how to edit Wikipedia.
