

TO WHOMSOEVER IT MAY CONCERN

I would like to recommend Vikramank Singh as a candidate for a position with your organization. In his position as Intern in Research and Data Analytics, Vikramank was employed in our office for a period of 5 weeks. Vikramank did a good job in this position and was an asset to our organization during his tenure with the office. He was driven to perform and showed good written and analytical skills. His focus on getting the work done on time is valuable.

During his tenure with YourStory Media Pvt Ltd, Vikramank was responsible for researching on raw data, its visualization and creating reports. These reports consisted of case studies like Startups that failed in 2014, Upcoming Startups to work for, study on what topped the charts on Google this year and more. Vikramank effectively scheduled and managed several tasks to maintain efficient office operations.

Vikramank was always willing to offer his assistance and had a pleasant rapport with colleagues and other professional organizations. He would be an asset to any employer and I recommend him for any endeavour he chooses to pursue.

Yours truly,
Jubin Mehta
